

Learning With iPads! ♥

Mrs. Lingamneni's technology project at Higginson School in Roxbury, MA

My Students: A large percentage of our students come from high-poverty areas where technology is not available, but technology is of utmost importance to their learning and educational futures. It is important for us, as educators, to encourage our ... [▶ more](#)

We believe that through the use of iPad applications (i.e. iBooks, iMovies, interactive games, writing/math programs, etc.) in our classroom our students will be able to use technology throughout all subject areas for various ... [▶ more](#)

My students need 2 iPads in our First Grade Inclusion classroom to facilitate their success by being learners and explorers with modern day technology.
