

## Places to Reconsider in My Classroom

3. What do you want to reconsider? Why?

Area: this area is for small groups or whatever maybe appropriate at the moment. I would reconsider this area because this table take up a large portion of the classroom. I would like to place the table in another area, so the space is open and less cluttered

## Area 2:

These areas are for storage, library and reading area. this area is good i wouldn't want to do anything with the library to the right in the second picture, but i would like to move the shelf in picture one in

another area due to covering the storage space in the closet.

Though this area is low and very accessible for students i would reconsider having everything very close and tight. potentially having shelves that are wider would hold more materials. I would also move this shelf to another area of the classroom due to being very close to a door connected to another classroom.
